The figure illustrates a web-based user interface for provisioning, labeled 300. The interface is divided into several sections:

- Navigation Bar (134):** Located at the top right, it contains a "Summary" tab and standard window controls (minimize, maximize, close).
- Step Indicator (138):** A horizontal bar at the top of the main content area, showing a sequence of steps: 1, 2, 3, 4, 5, 6. Step 6 is currently selected.
- Parameter Fields:** A vertical stack of boxes on the left side, each representing a step in the provisioning process:
 - Connection Parameters 202
 - Routing Parameters 204
 - Order Parameters 206
 - Administrative Parameters 208
 - Transmission Parameters 210
 - Summary 212 (shaded, indicating the current step)
- Form Fields:** On the right side, there are input fields for each parameter type:
 - Connection Parameters: Two text input fields.
 - Order Parameters: One text input field.
 - Administrative Parameters: Two text input fields.
 - Transmission Parameters: One text input field.
 - Comments: A large text area with a vertical scrollbar.
- Buttons:** At the bottom right, there are two buttons: "Submit" (322) and "Reset" (324).
- Tip(s) Section (150):** Located at the bottom left, it contains a list of instructions:
 1. Review Parameters Carefully
 2. Go back to Task(s), if necessary or click reset to re-input the order from the beginning
 3. If no errors found, click submit
